Question 2

Iterate from 0 to n and print both the current number and previous number also their sum.

Input:

Input will be the n number.

Example input:

5

Output:

Output needs to contain n lines. In each line you need to print the index of the line and the total sum at that point.

Example output:

0 0
1 1
2 3
3 5
4 7
5 9
